Norfolk Environmental Waste Services

WHEELED CONTAINERS

NEWS' wheeled container collection system is designed for the containment and removal of dry compactable non-hazardous waste. The containers are fully enclosed, lockable and easily manoeuvrable, offering a flexible service for small waste producers using single units or larger volume producers with multiple units.

NEWS offer a flexible collection service ensuring that containers are emptied as often as required by customers. Because the containers are emptied on site by a mobile compaction vehicle and are not removed, customers have continual access to their waste container.

- regular collection service
- flexible collection service when required
- smart appearance
- easy to clean
- on-site emptying
- containers remain permanently on site
- space saving and easy to manoeuvre
- lockable for security
- lidded for full containment of waste
- easily accessible with low loading height
- suitable for inside or outside storage
- high level of personal service and customer support
- "Duty of Care" compliance

WHEELED CONTAINERS
