Norfolk Environmental Waste Services

## REAR END LOADERS

NEWS' rear end loading collection system is specifically designed for the containment and removal of dry compactable non-hazardous waste. These fully enclosed lockable containers provide for the effective and secure containment of waste - and for a clean and tidy workplace.

NEWS offer a flexible emptying service ensuring that containers are emptied as often as required by customers. Because the containers are emptied on site by a mobile compaction vehicle and are not removed, customers have continual access to their waste container.

- regular collection service
- flexible collection service when required
- container sizes to suit volumes of waste produced
- on-site emptying
- containers remain permanently on site
- space efficient
- lockable for security
- lids and rear doors ensure full waste containment
- easily accessible with low loading heights
- high level of personal service and customer support
- "Duty of Care" compliance

# REAR END LOADER

## Dimensions

Size	cu m	length	width	height
10 cu yards	7.65	4.15m	1.85m	1.65m
