

WEEE

DISPOSING OF WASTE ELECTRICAL EQUIPMENT

The WEEE (Waste Electrical and Electronic Equipment) regulations require all equipment with a battery or a plug to be disposed of separately from your general waste. This is to maximise the recycling of potentially harmful items which have previously been disposed of by landfill.

HOW THE WEEE REGULATIONS AFFECT YOU

- WEEE must be separated from the general waste stream
- WEEE must be collected by a Registered Waste Carrier
- WEEE must be taken to an approved treatment facility for recycling / treatment
- WEEE producers are responsible for funding the recycling / treatment of their own waste

HOW **NEWS** CAN HELP

- Safe collection of all your WEEE
- Safe and secure recycling / treatment of all WEEE products
- Straightforward advice and information
- Full compliance with all applicable legislation

WHAT IS WEEE?

WEEE is any equipment powered by electricity, whether through the mains or with a battery. This would include a wide range of domestic and commercial items such as:

- | | |
|--|--|
| • Televisions and computer monitors | • Kettles, microwaves, coffee machines and similar household type appliances |
| • Hi-fi equipment, DVD and video equipment | • Electrical and electronic tools, torches and other small items |
| • IT equipment and mobile phones | • Welding equipment |
| • Telecoms equipment, fluorescent tubes and other lighting equipment | • Spraying equipment |
| • Fridges, refrigeration equipment and air conditioning units | • Weighing equipment |

NEWS can provide a fully compliant recycling / treatment route for all WEEE items.

Let **NEWS** guide you through all you need to do about WEEE.

FAX BACK ENQUIRY FORM to 01603 891273

Please provide more information on WEEE compliance and collections of WEEE.
